Problems / Pain Points

Businesses	Customers Consumers	Investors	Other Stakeholders
Don't have a solution other than ESG reporting to value their ESG commitment and impact and align it with their brands	Don't value Brands' ESG commitments	Use rating from agencies which are based on what companies present with very limited verification with stakeholders	Lack of credibility in ESG reporting and sometimes consider it as social/greenwashing

Our Solution: Sponsio Platform

Businesses	Customers Consumers	Investors	Other Stakeholders
Manage On-chain their actions as a digital asset and ensure their materiality & authenticity	Be informed on Brand ESG' portfolio and trust it	Access and verify ESG Data on the platform	engagement and participation in verifying ESG reporting

Sponsio, by using technology (Blockchain, IOA, AI, IOT,..) Offers an effective, scalable & credible solution to assess Value & Impact, and thus, build trust in businesses' relationships with their Stakeholders and Society

HOW IT WORKS

Initiatives are recorded on the blockchain in the form of a digital asset

Materiality

Real Impact of the initiatives and contribution to SDGs are approved by Stakeholders or/and Third Parties

Verification

Credibility

Initiatives are acknowledged by stakeholders

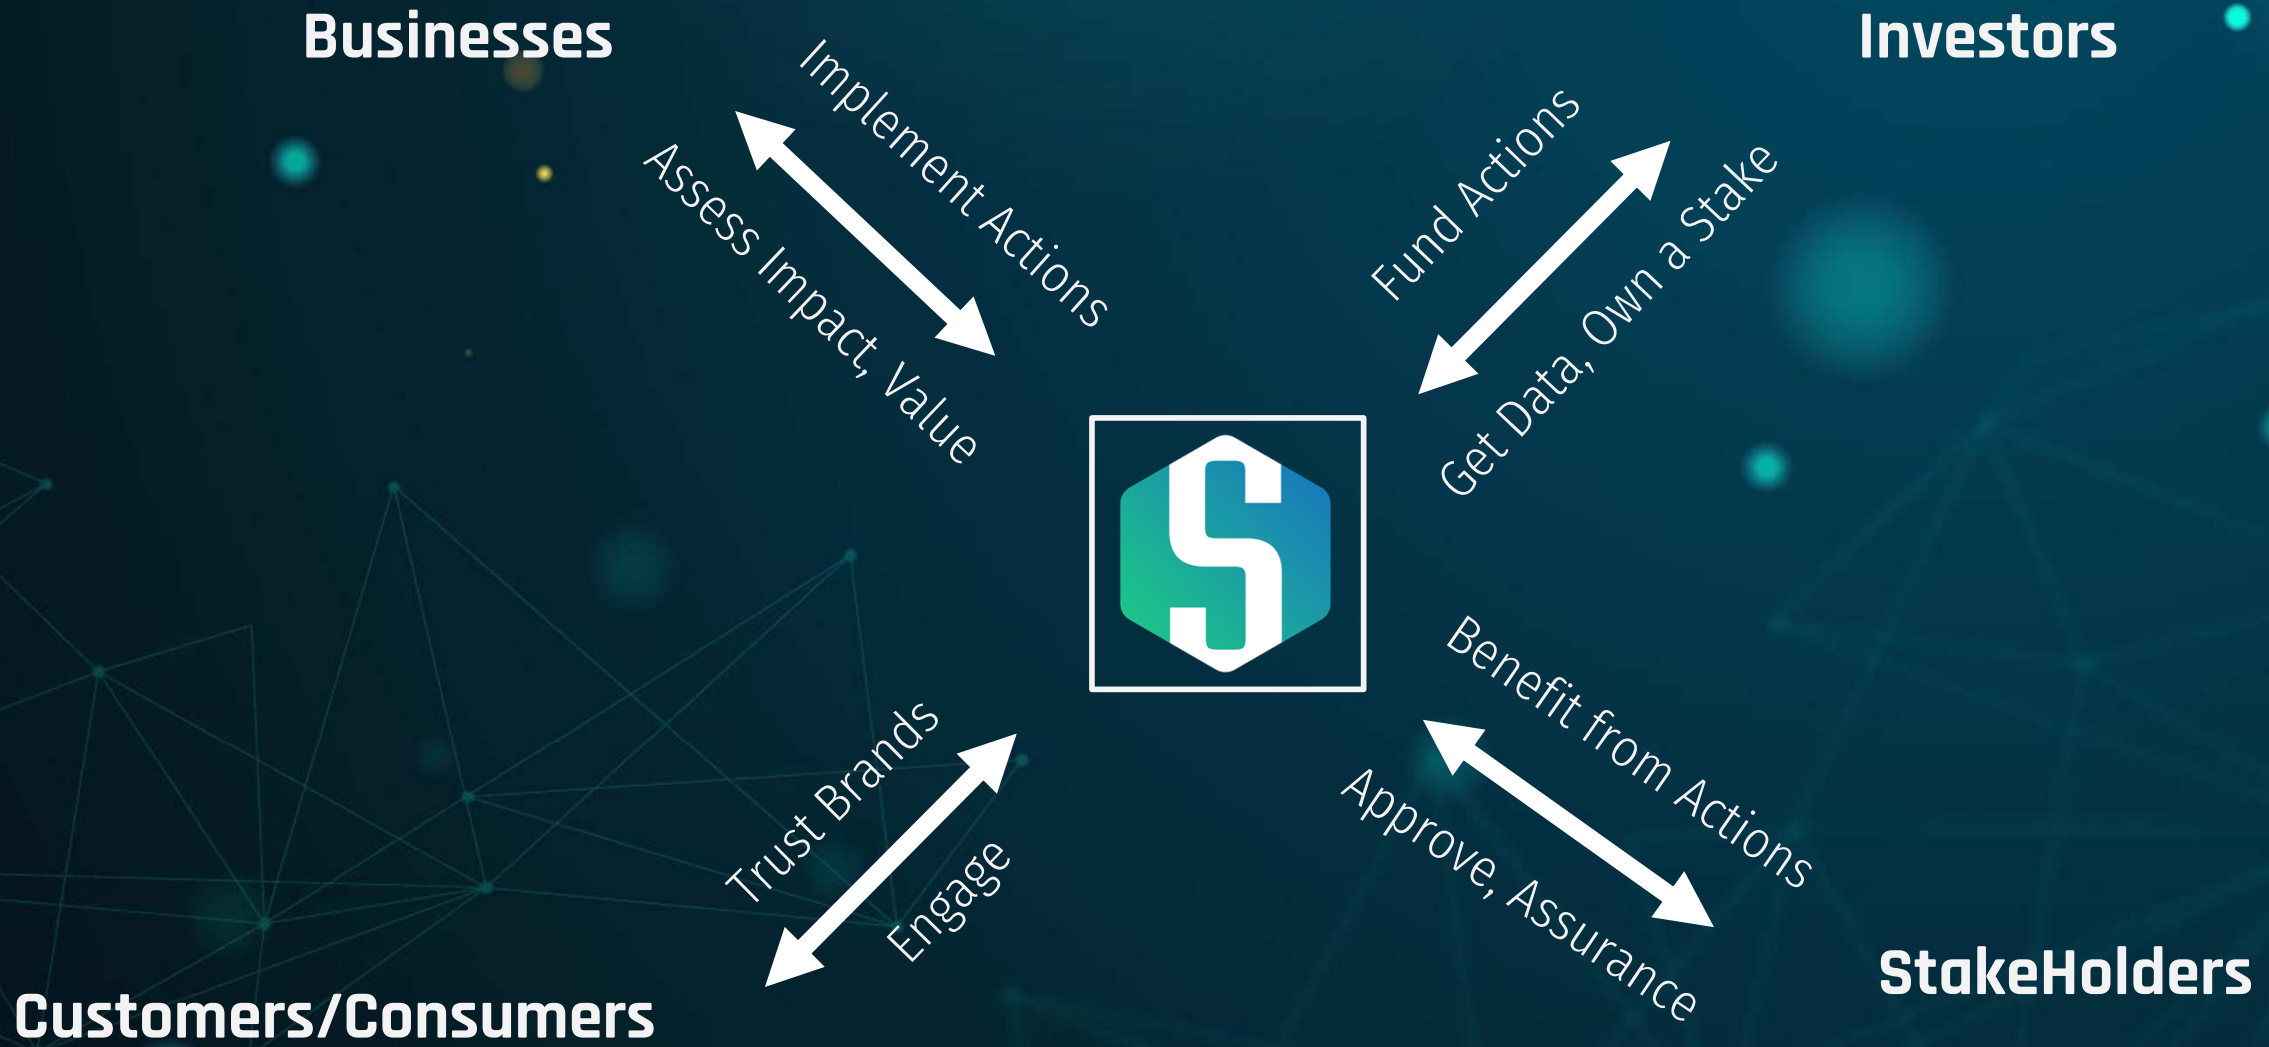

Customers and Consumers access verified and trusted information

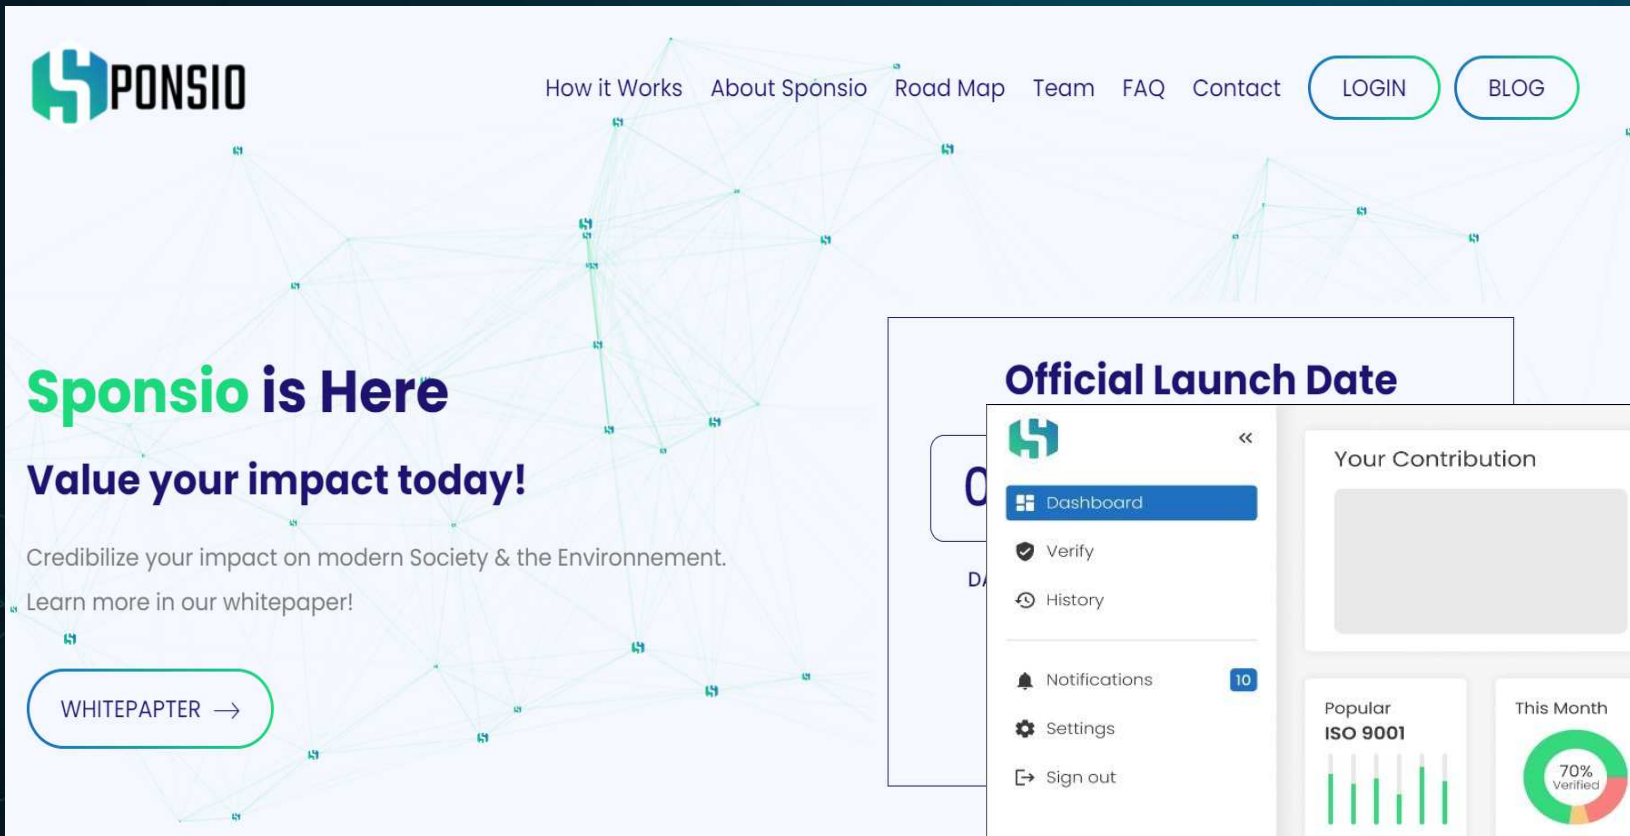

Stake Management & Modelisation

Portfolio of Initiatives with measured impact and contribution to SDGs.

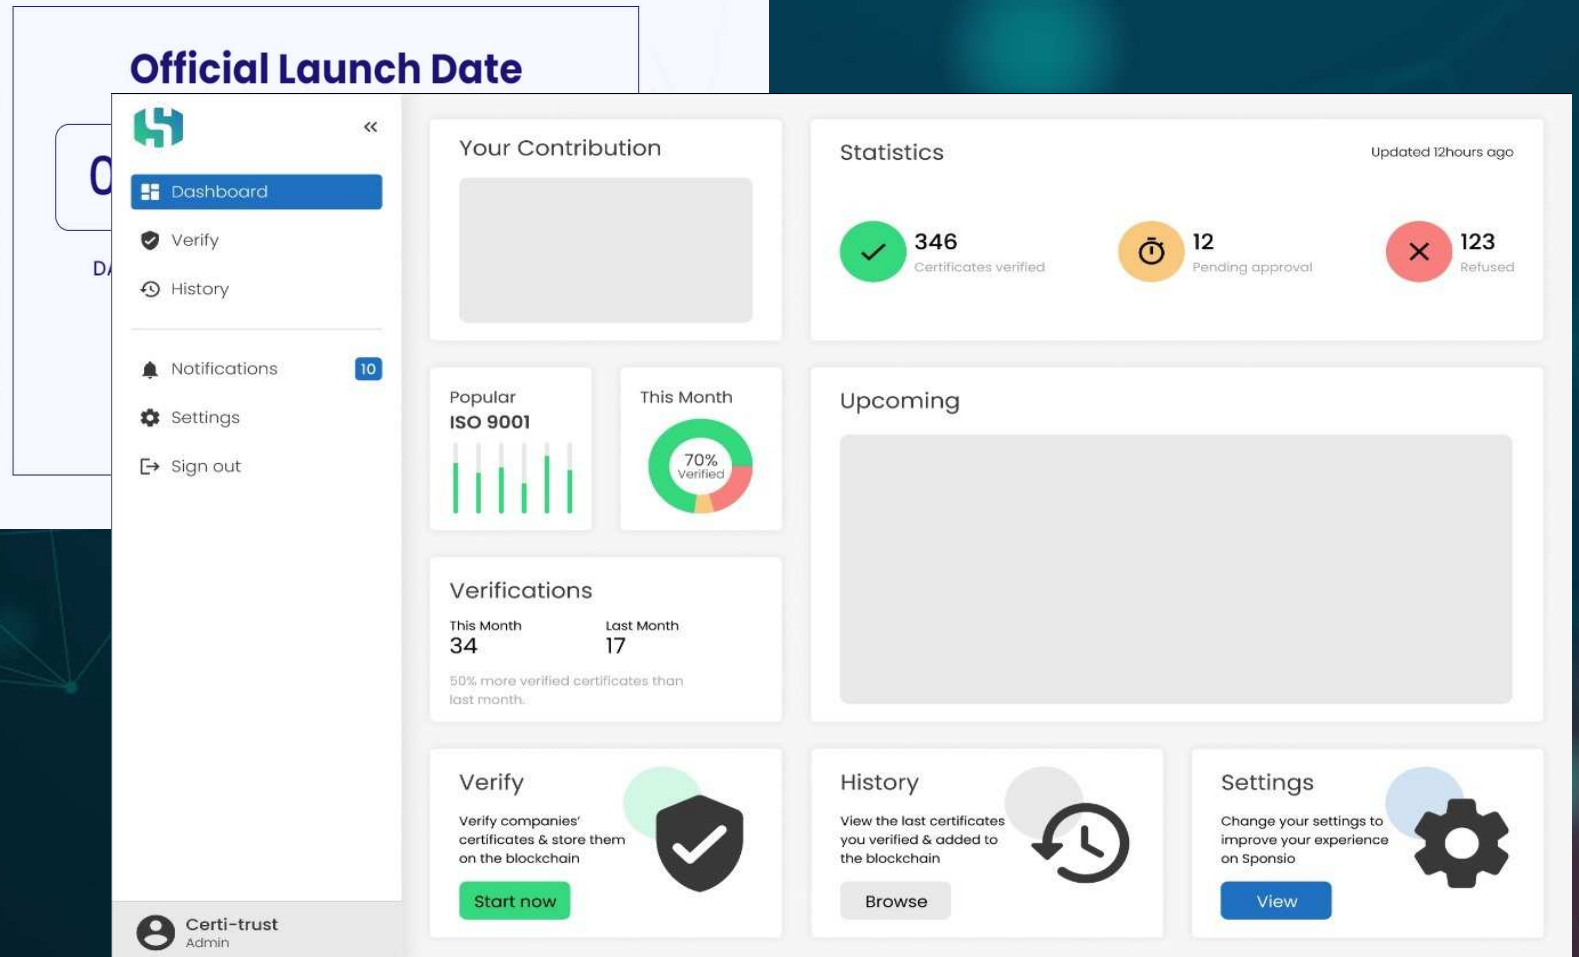

Sponsio Platform : A Socialplace

Work in Progress

The landing page features the Sponsio logo in the top left. The navigation menu includes 'How it Works', 'About Sponsio', 'Road Map', 'Team', 'FAQ', and 'Contact', followed by 'LOGIN' and 'BLOG' buttons. The main content area has a large heading 'Sponsio is Here' and a sub-heading 'Value your impact today!'. Below this is a paragraph: 'Credibilize your impact on modern Society & the Environment. Learn more in our whitepaper!' and a 'WHITEPAPER ->' button.
